

Find Surface Area

Name _____

Learning Target: Find the surface areas of rectangular prisms.

Success Criteria:

- I can draw and label a net for a rectangular prism.
- I can find the areas of the faces of a rectangular prism.
- I can use nets to find surface areas of rectangular prisms.

Think and Grow

Key Idea The **surface area** of a three-dimensional figure is the sum of the areas of all of its faces. You can use a net to find surface area.

Example Find the surface area of the rectangular prism.

Use a net to find the area of each face.

$$\text{Top: } 8 \times 4 = \underline{\hspace{2cm}}$$

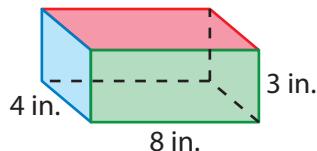

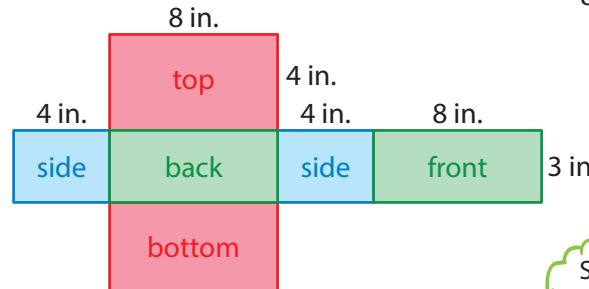

$$\text{Bottom: } 8 \times 4 = \underline{\hspace{2cm}}$$

$$\text{Front: } 8 \times 3 = \underline{\hspace{2cm}}$$

$$\text{Back: } 8 \times 3 = \underline{\hspace{2cm}}$$

$$\text{Side: } 4 \times 3 = \underline{\hspace{2cm}}$$

$$\text{Side: } 4 \times 3 = \underline{\hspace{2cm}}$$

Surface area is measured in square units.

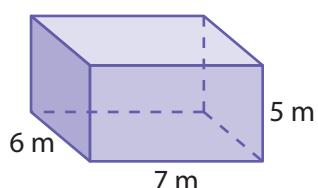

Find the sum of the areas of the faces.

$$\begin{aligned}\text{Surface Area} &= \text{Area of top} + \text{Area of bottom} + \text{Area of front} + \text{Area of back} + \text{Area of a side} + \text{Area of a side} \\ &= \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} \\ &= \underline{\hspace{2cm}}\end{aligned}$$

So, the surface area is _____.

Show and Grow

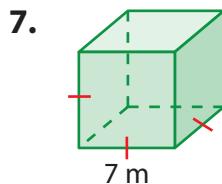

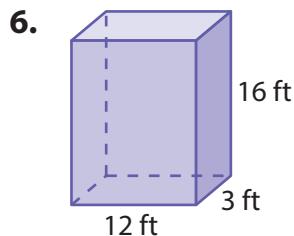

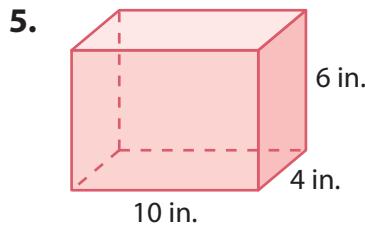

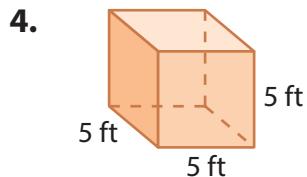

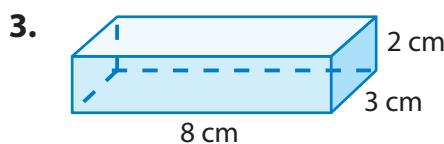

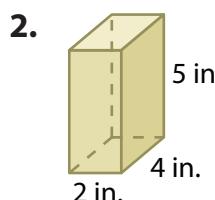

- Find the surface area of the rectangular prism.

Practice

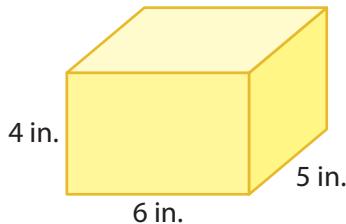

Name _____

Find the surface area of the rectangular prism.

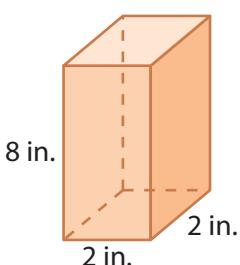

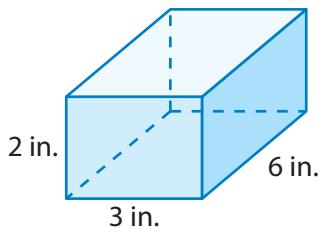

8. A crayon box is a rectangular prism. The box is 3 inches long, 1 inch wide, and 4 inches tall. What is the surface area of the crayon box?

9. **You Be the Teacher** Your friend says the surface area of the rectangular prism is 74 square inches. Is your friend correct? Explain.

10. **MP Structure** Compare the dimensions and surface areas of the rectangular prisms. What do you notice?

11. **Modeling Real Life** You have 1 pint of paint, which covers 50 square feet. Do you have enough paint to cover the entire wooden chest? Explain.
